

## *Our values:*

- Community first.
- Client centered.
- Responsive to community needs.
- Strong and reliable.
- Local and consistent.

## *Our mission is to serve yours.*

Journey Health System provides organizational management, advocacy, financial and administrative shelter to its family of affiliated behavioral health care providers so that they may focus on what they do best - serving their clients in a changing healthcare environment.

Our services and employment are provided in a nondiscriminatory manner, without regard to race, sex, color, national origin, ancestry, religious creed, disability, and age.

*An Overview*

# About Journey Health System

Journey Health System is an affiliate network comprised of behavioral health companies staffed by 1,000 full-time and part-time individuals.

The Journey Health System Board of Directors include representatives from each of the member organizations. Together they deliver mental health care to a total of 23 counties across Pennsylvania.

As a 509(a)(3) nonprofit organization, Journey Health System functions as a supporting organization that takes the burden of managing administrative functions away from the affiliated behavioral health organizations to allow them to focus on their mission of providing excellent care.

Journey Health System is designed to ensure better outcomes for clients, families, and the communities served and allows for greater efficiency in the delivery of behavioral health services.

By being a part of Journey Health System, the administrative fees, ideas, and innovative best practices are shared among the group of affiliated companies. Millions of dollars are saved through bulk purchasing power, contract negotiations, and economy-of-scale advantages. This should make each affiliate organization financially stronger and more sustainable for the foreseeable future.

## Our Services

OUR MISSION IS TO SERVE YOURS.

We do this by:

**Bringing like-minded agencies together** under a support corporation concept to maximize strengths while neutralizing weaknesses.

**Increasing opportunities for service growth** and leveraging best practices for better outcomes.

**Enhancing financial stability and bargaining strength.**

**Identifying needs within individual communities** and developing programs and services locally to serve those needs.

**Leveraging the extensive expertise** of both clinical care as well as human service administration and support to provide the public, as well as other providers, with the stability of local healthcare options.
